Neural patterns of premotor activity associated with production of subsong and plastic song in juvenile zebra finches Adret & Margolias	1
The role of bioacoustics in the reproduction of the African cheetah ( <i>Acinonyx jubatus</i> ) Anderson	37
Different acoustics method analyses yield to different results Alain, Giret, Roy, Pachet, Kreutzer & Bovet	51
Copulation solicitation calls of female canaries ( <i>Serinus canaria</i> ) and their effect on males Amy	38
Vocal repertoire of Asian elephants ( <i>Elephas maximus</i> ) in captivity: a current project Artelt & Konz	4
Dolphin whistles, are they communicating information? Bazua-Duran	44
Call repertoire of an endemic avian species, the Indian chat <i>Cercomela fusca</i> Bhatt & Sethi	5
Individual and sex differences in common raven calls Böckle & Bugnyar	22
Vocal repertoire of an infant giant panda ( <i>Ailuropoda melanoleuca</i> ) in the first postnatal week Bruckner, Lintner, Stoeger-Horwath & Pfistermüller	6
Individual vocal signature in Australian sea lion, <i>Neophoca cinerea</i> Charrier, Pitcher & Harcourt	23
Male domestic canaries, <i>Serinus canaria</i> , use song to discriminate kin Chébaux, Kreutzer & Béguin	24
Vocal communication in bonobos, <i>Pan paniscus</i> : are food calls functionally referential signals? Clay & Zuberbühler	42
Microdialects in the European wren <i>Troglodytes troglodytes</i> Courvoisier, White, Camacho Schlenker, Aubin	9
Song influence on the vocalizations of male canaries De Sevin	30
Food-associated vocal behaviour in mammal-eating killer whales – is it referential? Deecke	43
Sex differences in responsiveness to begging in a cooperative mammal English, Kunc & Madden	21
Comparisons of behavioural patterns and vocalisations in pair housed and family housed captive howler monkeys ( <i>Alouatta caraya</i> ) Farmer	36
Social correlates of biphonic call type production by killer whales Foote, Osborne & Hoelzel	35
Structural variation in banded mongoose calls in the context of recruitment Furrer & Manser	34

Does song development in female songbirds follow the same route as in males? Geberzahn & Gahr	14
Group signalling: cooperative or selfish behaviour? <a href="#">Golabek_Toc202252536</a>	33
Acoustic character displacement in an avian contact zone Halfwerk ,Dingle, Brinkhuizen, Poelstra & Slabbekoorn	11
Development of referential and motivational information in meerkat alarm calls Hollén & Manser	32
Teen stress: song learning in zebra finch juveniles Honarmand, Riebel & Naguib	15
What to sing next? - Rules of song type delivery in nightingales ( <i>Luscinia megarhynchos</i> ) Kipper & Hultsch	46
Vocal individual recognition in Japanese jungle crows ( <i>Corvus macrorhynchos</i> ) Kondo, Izawa & Watanabe	25
How early testosterone treatment affects production of song learning in male zebra finches Leitão & Gahr	2
Seasonality in song behaviour revisited: Seasonal and annual variants and invariants in the song of the canary ( <i>Serinus canaria</i> ) Leitner & Voigt	48
Individual signatures in communication calls of a nocturnal lemur ( <i>Microcebus murinus</i> ) Leliveld, Scheumann & Zimmermann	26
Vocal performance, song syntax and social context in the domestic canary ( <i>Serinus canaria</i> ) Lenouvel, Vrignaud & Kreutzer	45
Willow warbler males ( <i>Phylloscopus trochilus</i> ) assess a rival's fighting ability by the frequency of his song Linhart & Fuchs	40
Pups of the degu ( <i>Octodon degus</i> ), a communally nesting caviomorph rodent, include ultrasonic frequencies in care-eliciting calls Long	20
A comparative study of song in the <i>Thryothorus</i> wrens Mann, Dingess-Mann, McCormick & Slater	12
Changes in groans and calling rate of fallow bucks represent declining body condition and variation in the intensity of sexual selection McElligott & Vannoni	39
Duetting in a nocturnal mammal ( <i>Lepilemur edwardsii</i> )- a mechanism for joint territorial defense and prevention of infanticide? Méndez-Cárdenas & Zimmermann	31
The acoustic repertoire of wild dusky dolphin ( <i>Lagenorhynchus obscurus</i> ) groups in Golfo Nuevo, Patagonia Nastasi, Borsani, Crespo & Dans	7
Dynamics of vocal tract articulators in the zebra finch ( <i>Taeniopygia guttata</i> ) Ohms, Beckers , ten Cate	3
Pipit, sing me a song, and I will know who you are, and where you are from Petrušková, Osiejuk & Petrušek	10

Applied acoustics: real-time localization for studying wild primates in remote areas Piel, Moore & Pruetz	52
Delayed onset of vocal recognition in Australian sea lion pups ( <i>Neophoca cinerea</i> ) Pitcher, Harcourt & Charrier	16
Pyow and hack calls of the male putty-nosed monkey ( <i>Cercopithecus nictitans</i> ) convey information about male identity Price, Arnold, Zuberbuhler & Semple	27
A study of cross-modal individual vocal recognition in the domestic horse ( <i>Equus caballus</i> ) Proops, McComb & Reby	28
Vocal relationships in the neighbourhood: neighbour-stranger discrimination and spatial categorisation of neighbours in a song bird species Rybak, Briefer & Aubin	29
On the song structure of an Indian endemic song bird, the Indian chat <i>Cercomela fusca</i> Sethi & Bhatt	8
Relationship between movement and vocal behavior of free-ranging Norwegian killer whales Shapiro, Solow & Tyack	49
Human listeners attend to size information in domestic dog growls Taylor	41
Spreading loss influences the underwater communication ranges of Weddell seals Terhune	50
Syntax detection by a songbird, the zebra finch ( <i>Taeniopygia guttata</i> ) Van Heijningen, De Visser, Zuidema & ten Cate	47
Identification, usage, and ontogeny of contact calls in belugas ( <i>Delphinapterus leucas</i> ) Vergara & Barret-Lennard	17
Song variation of thrush nightingales in allopatry and sympatry with a hybridising congener Vokurková, Petrusková, Petrusek, Reif & Storchová	13
Call sharing across vocal clans of killer whales: evidence for vocal imitation? Weiß, Symonds, Spong & Ladich	18
Individual- and family-specific information in greylag gosling ( <i>Anser anser</i> ) vocalizations Weiß, Kondo, Kotrschal & Scheiber	19
